Owner(s) Physical Address City, State Zip Code	Owner(s) E-Mail address

VETERINARIAN INFORMATION

Veterinarian Name	Veterinarian Phone Number
Veterinarian Physical Address City, State Zip Code	Veterinarian Business Hours

The parties enter into this Agreement for the purpose of breeding the two dogs referenced herein. The stud fee and costs are to be paid in full in advance of breeding and/or shipment. This Agreement includes three (3) breeding services within dam's current heat cycle. Each additional breeding requested by Dam owner(s) will be provided at the rate of \$100 each, plus supplies costs and shipping fees.

The parties represent their respective dogs are current on their vaccinations and acknowledge that there are always potential health risks when exposing live animals to other live animals. Each party holds the other party harmless with respect to all diseases or events that may occur as a result of this breeding.

Dam owner(s) agrees to provide negative brucellosis test results within 30 days of this breeding. This requirement is waived *only* for breeding via artificial insemination (AI). Stud owner(s) require progesterone testing be performed on the dam and be provided to Stud owner(s) to precisely time breeding/insemination with dam's ovulation cycle. Failure to provide progesterone test results shall void any rebreed service under this Agreement, the stud fee will expire, and there will be no refund of any costs incurred by Dam owner(s).

Stud owner(s) hereby incorporates stud's pedigree, any health, color, and/or coat testing results as part this Agreement. Stud owner(s) tests for most of the currently recommended health tests appropriate to the respective poodle variety by the parent club (Poodle Club of America) per the American Kennel Club. Should Dam owner(s) or owner(s) of any offspring produced by this mating choose to perform any additional testing or retesting not specifically included in these incorporated testing results of the stud dog, Stud owner(s) specifically excludes the product of those results from this Agreement, and Dam owner(s) agrees to not hold Stud owner(s) responsible in any way. This includes any testing result from any testing company indicating the offspring has none, one or both genes of any health, color, coat, or any trait, etc., specifically including CDDY-IVDD as this genetic marker is known to be "fixed" in the smaller poodle varieties (85-90% of all toy and miniature poodles).

One living puppy constitutes a litter. Stud owner(s) agrees to approve parentage for any applicable kennel club registration applications resulting from this mating in a timely manner upon Dam owner(s) presenting the registration application to Stud owner(s). Stud owner(s) reserves the right to request the Dam owner(s) to perform DNA testing on any offspring to confirm parentage before approval of any kennel club registration application.

If dam fails to be pregnant, Dam owner(s) must give notice not later than fifty (50) days after date of mating and provide verification from their veterinarian to Stud owner(s) via email or USPS mail on the veterinarian's letterhead. Stud owner(s) reserves the right to confirm said non-pregnancy mating either in person or by direct communication with Dam owner(s)'s veterinarian and Dam owner(s) grants Stud owner(s) communication access directly with that veterinarian for confirmation purposes only. Stud owner(s) agree to provide one return breeding service to the dam listed in this

Agreement on her next heat cycle. Rebreds are not transferrable to another dam or to another dam owner(s). Should there be a second mating resulting in a non-pregnancy, the stud fee will expire along with any further rebreds. All costs incurred by Dam owner(s) will not be refunded.

In the event Stud owner(s) ceases breeding activities, this Agreement will be terminated and Dam owner(s) releases Stud owner(s) from all future obligations included in this Agreement.

The picture(s) of the stud which Stud owner(s) provide to Dam owner(s) are of a professional quality, taken by a professional and are marked with our logo/business name. Dam owner(s) has Stud owner(s)'s permission to advertise any puppies produced by this breeding using these stud picture(s) as provided. Dam owner(s) does not have permission to alter these photos in any way and stud owner(s)ship must be attributed to Idaho Jewels Poodles when advertising the puppies resulting from this breeding. Further, Dam owner(s) gives permission to Stud owner(s) to share all photos sent to Stud owner(s) of the puppies produced from this breeding.

Stud owner(s) may accept credit cards as a convenience to Dam owner(s). Dam owner(s) agrees that no chargebacks or disputes will be filed through a credit card company or financial institution for ANY REASON.

This Agreement is a legally binding document. Any court costs and attorney fees necessary to enforce this contract shall be paid by Dam owner(s) in the state of Idaho and the laws of the state of Idaho, county of Jefferson, United States of America will govern the interpretation of this contract. There are no other warranties, expressed or implied.

Julie Macki and/or Rebekah Antis, stud dog owner(s)

Dam owner(s)

I, Julie Macki and/or Rebekah Antis, as Stud owner(s), hereby certify and guarantee that stud dog was _____collected OR _____ mated properly for the purposes of AI, the semen evaluated, semen extender added to the sample, appropriately packaged in accordance within the semen extender guidelines, and shipped to the Dam owner(s) veterinarian or directly to the Dam owner(s) for insemination to the Dam listed in this Agreement.

Julie Macki and/or Rebekah Antis, stud dog owner(s)
